

Java/J2EE Developer II: Newtown, PA. Analyze, design, develop, test, debug, and deploy various enterprise web applications. Develop applications using Java/J2EE technologies, using MVC, Struts, Spring frameworks, REST API, Web Services, XML, and Hibernate. Work with Oracle/SQL Server and write Stored Procedures. Develop applications by studying information needs; conferring with users; studying systems flow, data usage, and work processes; and investigating problem areas. Follow SDLC. Work in a team environment. Requires minimum of BS or equiv. in Computer Science or related, with 3 years of prior progressive professional experience in position offered or related. Mail resumes to: CROSS CURRENT BUSINESS ANALYTICS, LLC, 2700 S. Eagle Road, Newtown, PA 18940.

CROSS CURRENT BUSINESS ANALYTICS, LLC offers an employee referral program to encourage employees to recommend qualified candidates. Our referral program provides employees with a referral bonus for successful hires made based upon an employee's recommendation. If a recommended candidate is hired and completes 90 days of service, the employee who provided the referral will be entitled to a bonus of \$500.00 (five hundred dollars only). All referred candidates will be considered and evaluated based on experience and qualifications, and they will be subject to the same pre-employment standards as all other candidates. Questions regarding this policy should be directed to Human Resources.
